## Skills

### Graphic Design and Branding

Comfortable with all aspects of design from typography to print, I am perfectly able to use programs such as Adobe Illustrator and Adobe Photoshop with ease.

### Web Development

Knowledgeable in HTML, CSS, and Javascript aswell as CMS (Content Management Systems) such as Wordpress and Jekyll.

## Interests

**Video Editing** - I enjoy using Adobe After Effects currently as a hobby and occasionally professionally.

**Photography** - I enjoy taking various photographs in and around Belfast of art and nature.

**Golf** - Casual Golfer I enjoy going to the driving range and practising my swing.

**Hiking** - This ties into my photography hobby as I like to go hiking to take nature shots.

## About Me

I am and have been a Visual Designer for the past five years and in this time I have learned a great deal and of course I still continue to learn new things with each new project. I specialise in branding and web design, meaning that I love to create logo designs, posters and websites. I would spend my life using Illustrator if I could but... I want to expand my arsenal.

I hope that what I have written here shows the dedication that I have and the continual enthusiasm I have towards my own work. I am confident when it comes to design that I can build upon a business or corporations brand.
